Hi, Adrian,
I just got off the meeting. Can you call me now?
Yung

Hi Yung,

Do you have anytime today to meet with me to discuss the implications of the previous HASPOC decision which characterized requiring the developmental toxicity study only if significant oral exposure is expected? A data call in has not been issued for this data due to that characterization and from a policy standpoint, I am unsure if the lack of this data constitutes a data gap that would apply a 10X DBUF.

Best,
Adrian

Thank you for letting me know, Yung. I will reach out should I have additional questions after the meeting.

Best,
Adrian

Subject: Rotenone pre-meeting

Hi, Adrian,

I have a conflict on the Rotenone pre-meet meeting at 10 am today. I will need to attend a Broflanilide/PFAS DD meeting pep.

Please let me know if you have any question after the meeting.

Have a nice day.

Yung
